Lifting your quality of life

CENTRAL OFFICES:
C/Baños de Montemayor, 5
28005 MADRID (ESPAÑA)

FACTORY:
C/Lugo 14
Polígono Industrial La Estación
45220 Yeles TOLEDO (ESPAÑA)

The company was founded in 1923 by Mr. William Fabian Fischer, a German national residing in Spain. GRUPO EXCELSIOR was established as an unlimited company in March 1977. It became Ltd in October 2010. Our registered office is located in 5, Calle Baños de Montemayor, Madrid (Spain).

The company's trade name is GRUPO EXCELSIOR and we have over 90 years of experience in the lifting industry in the areas of designing, manufacturing, installing, maintaining and repairing all types of lifting equipment.

We have gained a great experience in the field of refurbishment in the last 20 years. We had installed elevators in buildings which had originally been built without them. We also provide the largest range of accessibility products available in the market (vertical platform lifts, stair lifts, wheelchair lifts and home lifts).

We are specialised in both passenger's lifts and cargo lifts, dumbwaiters and car lifts. GRUPO EXCELSIOR has its own factory where we design and manufacture all of our own lift components. This allows us to customize every order as needed particularly in old buildings.

Apart from the design and manufacturing we also test all of our components in any of our five in-house testing towers in our 20,000 square meters of factory, here, the Research & Development Department is continually developing new models of elevators, lifts, platforms and stair lifts. Our highly qualified and experienced team makes GRUPO EXCELSIOR a market leader.

Our corporate philosophy and commitment to excellent customer service enables hassle-free delivery and compliance with agreed deadlines. Excelsior's compromise to quality has always been a decisive factor in all its operations. Therefore, we have been implementing the international standard of quality management ISO 9001 since 1998.

Nowadays Grupo Excelsior is present in 39 countries. We do not only provide the required product but also a complete customer-centered experience with every export. Each customer's specific requirements are addressed professionally and timely.

Once again our work ethic, our unparalleled customer service and our many years of experience allow us to consistently produce the best products in the lift industry.

HORIZON STANDARD

The Horizon Standard seat delivers all the essential comfort and safety features you need, in a neat, slimline package. With a compact profile which sits close to the wall, the Horizon Standard seat comes in neutral colours to blend seamlessly into your home.

Joystick
Total control at your fingertips.

Security Lock
Prevent unauthorised use of the lift.

Slimline Standard Seat
Simple, compact, comfortable.

Lever Linked Swivel
Turns the user at the top of the stairs.

Digital Carriage Display
Easy to read, real-time diagnostics.

Lap Safety Belt
Additional safety when lift is in operation.

Manual Footrest with Safety Edge
Brings chair to a stop if staircase is obstructed.

Rail Angle
25° a 55°

Weight Limit
120kg (19st)

HORIZON STANDARD

- Fixed seat, back, height & arm positions.
- Maximum user weight limit 120kg (19st).
- Rail angles 25° to 55°.
- Standard joystick control.
- Digital diagnostic display in carriage.
- Infra-red remote controls.
- Manual seat swivel.
- Manual footrest raise.
- Lap seat belt.
- Powered hinge rail: **Optional**.
- Platinum Horizon outdoor kit: **Optional**.

HORIZON STANDARD - STRAIGHT & SIMPLE

Reduce a whole staircase down to five simple steps

1

Lower the arms and the seat pad, put the footplate down and your Horizon stairlift is ready to use. The digital diagnostic screen will display 'Platinum' meaning you are ready to go.

2

Your Horizon chair will be fully adjusted to your size and shape at installation, so all you need to do is strap yourself in, sit back, relax and enjoy the ride!

3

To operate your Platinum Horizon stairlift, simply use the ergonomic joystick in the arm and lightly press in the direction you wish to travel.

4

At the top of the stairs, use the side-mounted swivel lever (or optional powered swivel), to turn the chair and safely step out onto the landing.

5

When not in use, your Horizon stairlift can be folded and parked on the stairs, leaving clear access for other family members.

HORIZON PLUS with ERGO Seat

The Horizon Plus ERGO seat is one of the most advanced stairlift chairs available. The ERGO comes with fully adjustable arms, seat pad and back to suit any user and comes with a wealth of built-in features. Upholstery is available in a range of colours - ask your dealer for details.

Retractable Safety Belt
Additional safety when lift is in operation.

Security Lock
Prevent unauthorised use of the lift.

Dual Lever Footrest with Safety Edges
Brings chair to a stop if staircase is obstructed.

Lever Linked Swivel
Turns the user at the top of the stairs. Powered option also available.

Digital Arm Display
Easy to read, real-time diagnostics.

ERGO Seat Pad
Short or tall, ERGO fits all.

Ergonomic Joystick
Total control at your fingertips.

Adjustable Seat Back
Allows for horizontal adjustment of the seat back. Combined with the multi-position seat pad, the ERGO offers multiple configuration options.

Rail Angle
25° - 62°

Weight Limit
140kg (22st)

HORIZON PLUS

- Adjustable seat pad, back, height & arms.
- Suitable for users up to 140kg (22st).
- Rail angles 25° to 62°.
- Ergonomically shaped joystick control.
- Digital diagnostic display in arm.
- Infra-red remote controls.
- Manual seat swivel.
- Dual lever linked footrest raiser.
- Retractable reel seat belt.
- Adjustable sideways footrest.
- Choice of upholstery colours.
- Powered seat swivel: **Optional**.
- Powered hinge rail: **Optional**.
- Platinum Horizon outdoor kit: **Optional**.

HORIZON PLUS - ERGO Colour Options

STRAIGHT & SIMPLE

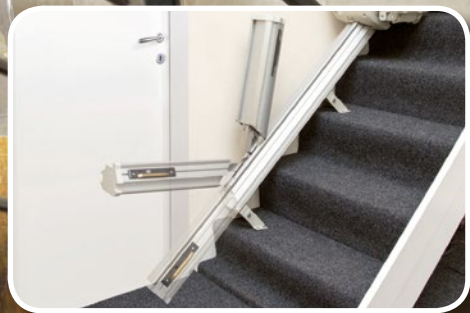

The Platinum Horizon straight stairlift is designed for ease-of-use and fast, hassle-free installation.

A Horizon stairlift makes difficult stairs accessible again and grants you the freedom of your house once more.

The compact design and floor-mounted straight rail ensure the Horizon takes up as little space as possible and does not impact upon your home's decor.

With two different models to choose from, the Platinum Horizon is suitable for all, no matter your shape or size.

For straight staircases, there is no better option than the Platinum Horizon. Ask your local stairlift dealer for a demonstration today.

ERGO & ERGOHD

The Platinum ERGO seat is one of the most advanced stairlift seats available. Fully adjustable to the size and shape of the user, the ERGO comes as standard on the Platinum Curve. The ERGO HD model features an increased weight capacity, which can accommodate users up to 160kg (25st), without sacrificing the looks of the standard ERGO seat.

Ergonomic Joystick
Total control at your fingertips.

Security Lock
Prevent unauthorised use of the lift.

Lever Linked Footrest
Open and close with ease. Powered option also available.

Safety Edge
Senses obstructions and brings the chair to a stop.

Digital Arm Display
Easy to read, real-time diagnostics.

Retractable Safety Belt
Additional safety when lift is in operation.

ERGO Seat Pad
Short or tall, ERGO fits all.

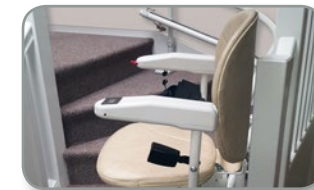

Adjustable Seat Back
Allows for horizontal adjustment of the seat back. Combined with the multi-position seat pad, the ERGO offers multiple configuration options.

ERGO SPACE

The compact ERGO Space seat is designed for Platinum Curve stairlifts which are required to be installed on narrow staircases, where space is at a premium.

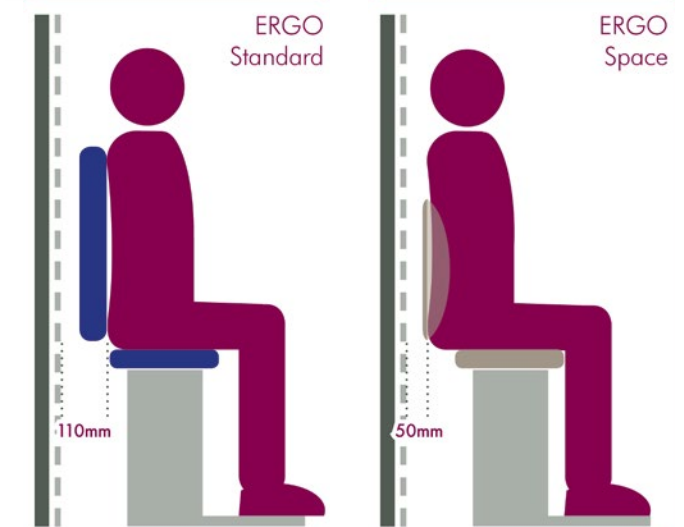

The ERGO Space seat wraps around the user's body, positioning the back 60mm closer to the wall than on the regular ERGO seat. In addition, the Space backrest is shorter than the standard ERGO seat, eliminating any clash with the user's shoulder blades.

ERGOPLUS PAD

In some situations, a user with short legs may find it difficult to flex the knee over the edge of the chair, resulting in the leg being unable to reach the footplate.

The specially designed ERGO Plus pad features a contoured edge, allowing the user's upper legs to angle down and their feet to rest on the footplate. Adopting this more natural and secure seating position can save 25mm. The Plus pad is available on the ERGO, ERGO HD and ERGO Space.

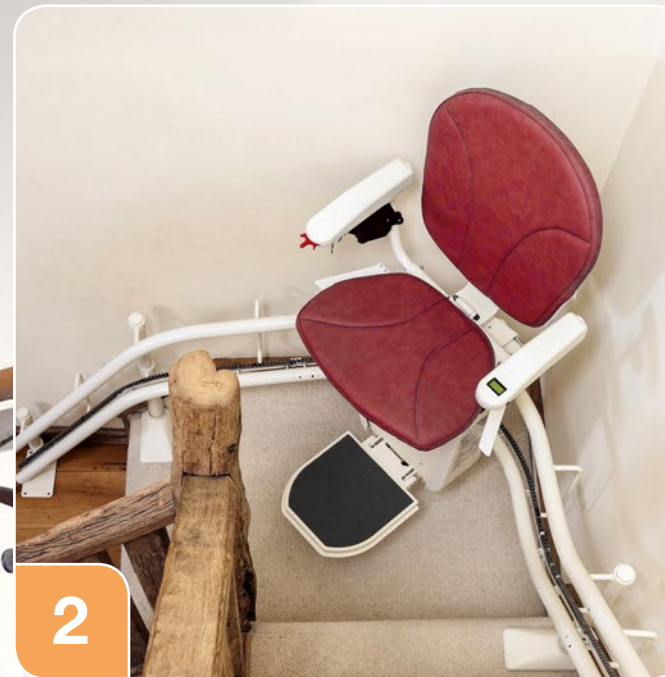

Reduce
a whole
staircase
down to five
simple steps

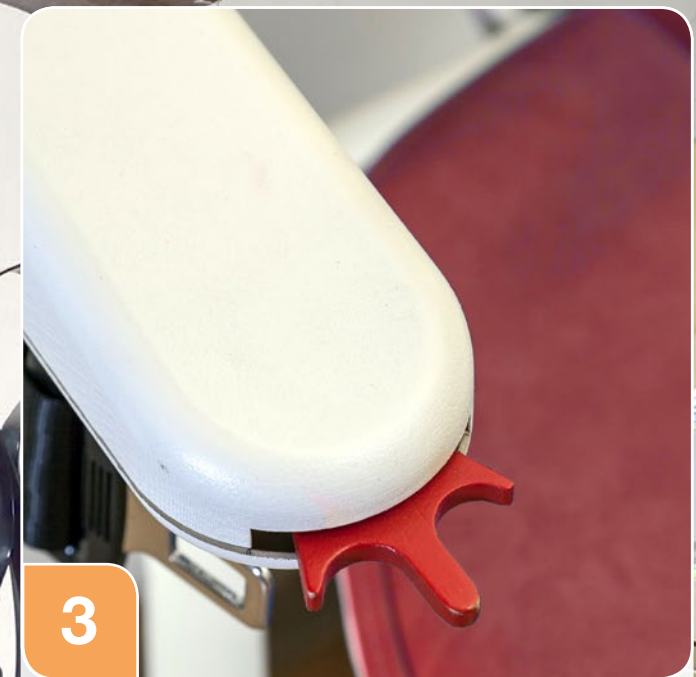

1

Lower the arms and the seat pad, put the footplate down and your Curve stairlift is ready to use. The digital diagnostic screen will display 'Platinum' meaning you are ready to go.

2

Your Curve chair will be fully adjusted to your size and shape at installation, so all you need to do is strap yourself in, sit back, relax and enjoy the ride!

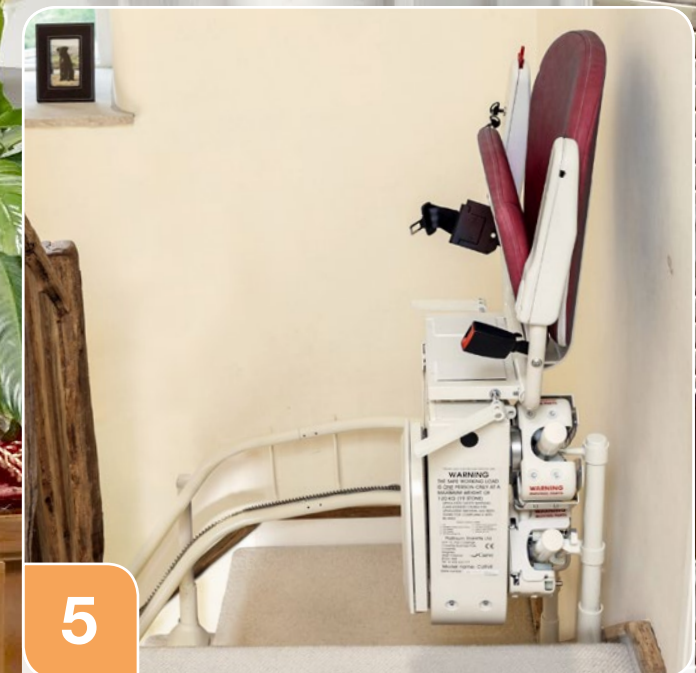

3

To operate your Platinum Curve stairlift, simply use the ergonomic joystick in the arm and lightly press in the direction you wish to travel.

4

At the top of the stairs, use the side-mounted swivel lever (or optional powered swivel), to turn the chair and safely step out onto the landing.

5

When not in use, your Curve stairlift can be folded and parked on the stairs, leaving clear access for other family members.

Custom built comfort

The Platinum Curve is hand built in the UK, to the exact measurements of your staircase, with the carriage being fully adjustable to your size and body shape.

Twists, turns and corners are no problem for your Curve, as the rail is tailor made to your individual staircase. With the Platinum Curve, you get a smooth, safe, comfortable ride and the freedom of your house once again.

In addition, the Curve's compact design and floor-mounted rail means it takes up as little space as possible and does not affect your home's decor.

For curved staircases, there is no better option than the Platinum Curve.
